ABOUT YDS

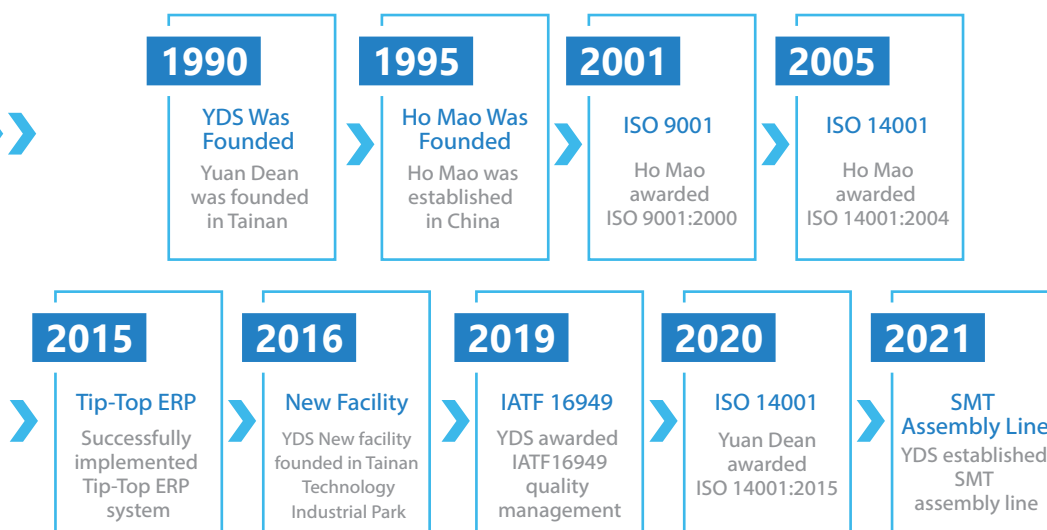

In 1990, YDS was founded in Tainan, Taiwan.

Five years later, our factory Ho Mao electronics was established in Xiamen, China. We are the leading manufacturer with ISO 9001/ ISO 14001/ IATF 16949 certification. We specialize in various products, such as DC/DC converters, AC/DC converters, RJ45 with magnetics, 10/100/1G/2.5G/5G/10G Base-T Lan filters, all kinds of Transformers, Inductors, and LED Drivers.

In 2015, we officially implemented the ERP system to achieve better integration of our overall performance. To fulfill the increasing demands from our worldwide customers, we relocated to Tainan Technology Industrial Park in 2016. Our factory in Xiamen also moved to a new site at the same time. As always, YDS endeavors to offer our clients with high quality products. To make our products more reliable, we introduced new facilities to enhance our capability, such as EMC lab, reliability test lab and thermal shock testing chamber in a row. As our business grows, we still focus on improving our quality and showing our concerns to the whole environment. We were certified by IATF 16949 in 2019 and awarded ISO 14001 in 2020. To further expand our production capability, we established SMT assembly line in 2021. With over thirty years' experience, YDS will be your best partner for sure.

Yuan Dean is one of the most experienced manufacturers of DC-DC converters in Taiwan. We offer different converters for clients to apply in different areas, such as industrial automation, railway transportation and medical electronics. To keep up with the market, we develop a series of compact size DC-DC converters with efficiencies exceeding 90%. Besides, we have independent R&D team. With their creative design ability, we can always supply economical solutions tailored by your requirements within a short time.

AC-DC Converters

0.5W~300W AC-DC Converter
 SIP/DIP package available
 Single/Dual/Triple/Quad output are available

We develop our AC-DC converters in a power range from 0.5W to 300W with various package options. Our AC-DC converters are well-known for their high efficiency, low power consumption and outstanding performance. Our design refers to the standard of Energy Star \ EMC \ IEC/EN/UL62368 and 60950. They can be applied to various applications from different industries, such as instrumentation, telecommunication, industrial control system and medical equipment.

 10/100/1G/2.5G/5G/10G Base T with PoE/PoE+ are available
 SIP/DIP/SMD package available

YDS has manufactured RJ45 connectors and Lan filters for over 30 years. Our strength lies in our excellent design abilities and great quality controls. We supply high quality products to a broad international customer base. The RJ45 connectors can be integrated with transformers into ethernet connector modules. We can customize the products for you with various sizes and transport speed.

 High frequency power Transformers
 Telecom Transformers/ Inductors

We are the leading electronic components suppliers to OEMs, contract manufacturers and CEMs. We produce many kinds of transformers, such as high frequency telecom transformers, PoE transformers, and power inductors. With the right balance skills of R&D team, we can design your own components to fit in your device.

DC-DC CONVERTER

- ◆ Low Ripple & Noise
- ◆ Constant Short-Circuit Protection
- ◆ Meet RoHS, CE, UL Certification

- ◆ Support various PHY
- ◆ Suitable for 10/100/1G/2.5G/5G/10G Base-TX applications
- ◆ 100% Electrically tested for HI-POT and continuity
- ◆ Meet or exceed IEEE 802.3af&at and ANSI X3.263
- ◆ Recognized by UL 60950-1
